

YOUR PARTNER IN PERFORMANCE

 **SAL** | COMMERCIAL

Illuminating Better Living

OUR STORY

Our Story

SAL Commercial's legacy began in 1998 with the founding of Sunny Lighting Australia, a family owned business built on long-term relationships, trusted performance, and a commitment to doing things the right way.

Over more than two decades, this foundation has grown into a respected leading Australian brand in the electrical industry, shaped by experience, consistency, and a deep understanding of local industry needs.

Australian owned and operated, SAL Commercial continues to build on this heritage, combining proven expertise with ongoing innovation to support the evolving demands of the Australian lighting market

VALUES

Our Company Values

At SAL Commercial we believe in the transformative power of light. Our main purpose is to engineer pioneering illumination solutions that bring environments to life, enriching every experience and weaving connections through brilliance.

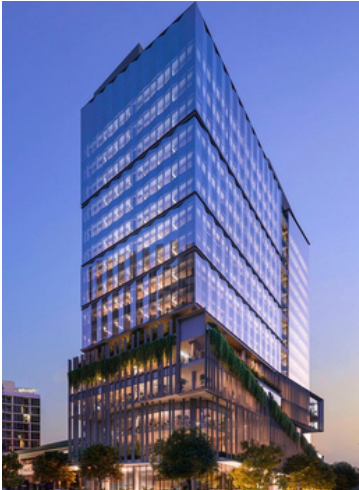

Championing sustainability and advanced technology, we dedicate ourselves to crafting superior lighting that sparks creativity, fosters human well-being, and sculpts the illuminated spaces of tomorrow.

To fulfill this purpose, we actively cultivate deep relationships with leading global lighting technology companies, ensuring we continuously integrate the world's most advanced innovations into our offerings. More than suppliers, we see ourselves as true partners to our clients, collaborating closely at every stage, from the initial spark of an idea to the final illuminated space, to deliver visions that not only meet but exceed expectations.

CATEGORIES

SAL Commercial has delivered lighting solutions across a diverse range of projects nationwide, spanning commercial, healthcare, education, public infrastructure, and architectural applications. Each project reflects our commitment to performance, compliance, and design excellence, backed by local expertise and trusted global partnerships

Commercial Projects

SAL Commercial delivers a comprehensive commercial lighting portfolio engineered for performance, compliance and long-term asset value. Our interior range includes high-efficiency LED downlights, troffers and architectural linear systems designed for offices, education and mixed-use developments, with multiple lumen packages, CCT options and DALI-2 control compatibility to meet project-specific performance targets. Externally, we provide robust architectural and area lighting solutions engineered for durability and uniformity. Across the range, products are designed for ease of installation, serviceability and integration with modern building management and lighting control systems, ensuring energy efficiency, visual comfort and reduced lifecycle costs.

Industrial Warehousing

For industrial and warehousing environments, SAL Commercial supplies robust, high-efficiency LED industrial lighting engineered for high-bay, surface mount and suspended applications. Our luminaires deliver precise illumination with excellent lumen maintenance, rugged construction and thermal performance to withstand demanding conditions.

Healthcare Facilities

Healthcare facilities demand controlled lighting with reliability and visual acuity. SAL Commercial integrates specialist medical and healthcare-grade LED solutions, including products from Brandon Medical, a multi-award winning, medical technology company with over 70 years of healthcare experience. With products designed for critical areas, providing high-CRI, low-flicker and easily maintained luminaires that support clinical tasks and patient wellbeing.

Aged Care Facilities

In aged care environments, SAL Commercial offers engineered LED lighting that prioritises human-centric performance. Our technical solutions support circadian wellbeing, glare-controlled illumination and energy-efficient operation, ensuring safe, consistent light levels across communal and resident spaces while minimising maintenance impacts.

Data Centres

SAL Commercial provides engineered LED lighting solutions designed for the reliability and efficiency demanded by modern data centres. Our high-efficacy luminaires deliver consistent illumination across server halls, plant rooms and support areas while minimising maintenance and energy load. With robust thermal performance, long lumen maintenance and DALI-2 control compatibility, SAL Commercial lighting supports scalable, efficient infrastructure for mission-critical environments.

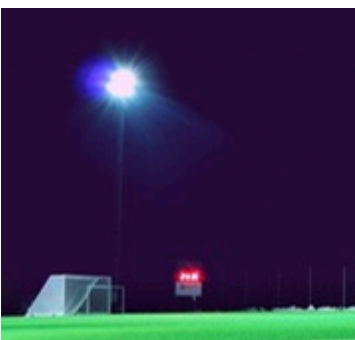

Infrastructure

SAL Commercial brings engineered lighting systems for infrastructure projects, combining durable exterior and industrial LED lighting with specification-ready controls. Designed for highways, campuses, public facilities and transport hubs, our products deliver long-life performance, uniformity and compliance with relevant lighting standards.

Retail

Retail lighting demands visual impact and performance precision. SAL Commercial's engineered LED solutions provide high-quality, controllable illumination that enhances product display, improves visual comfort and supports energy targets. Our interior and architectural exterior fittings allow tailored lighting schemes that meet operational and brand requirements.

Sports and Recreation

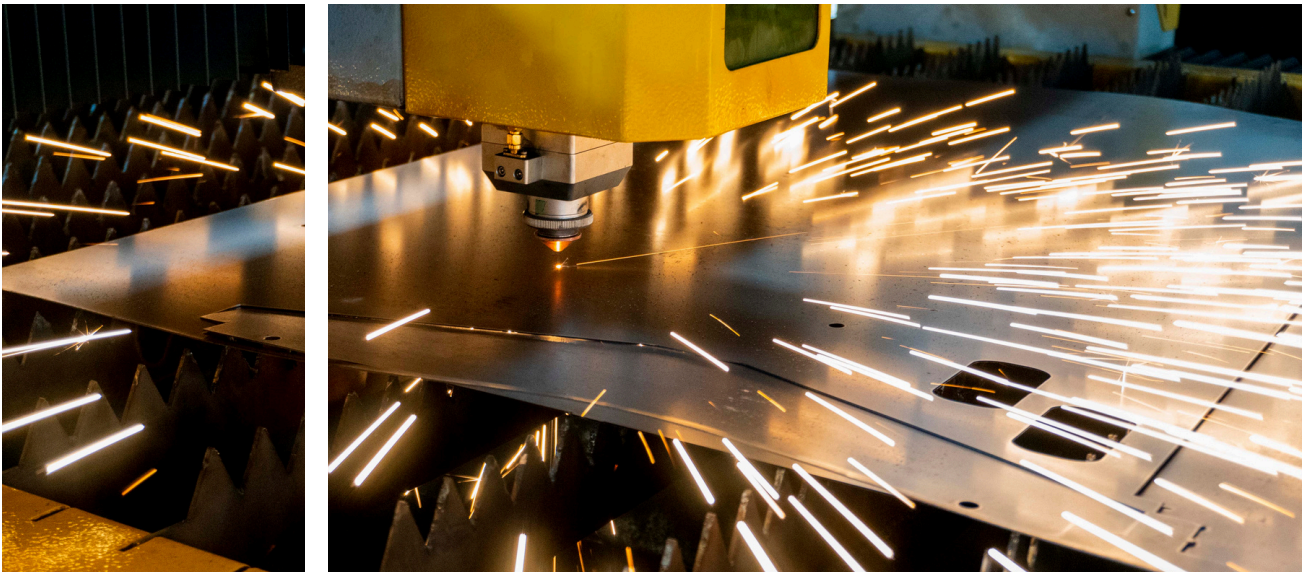

For sports and recreation venues, SAL Commercial supplies high-performance LED floodlighting systems engineered with purpose designed optics for uniform pitch illumination, delivering the lumen output and beam control required for safe, competitive environments and spectator comfort.

Correctional

In correctional settings, reliability, durability and safety are paramount. SAL Commercial's engineered interior and vandal-proof LED luminaires provide rugged, low-maintenance solutions with robust IP/IK performance, ensuring secure, compliant lighting that withstands harsh conditions while maintaining operational safety and visibility.

SOLUTIONS

Illuminating Better Living

Local Manufacturing

SAL Commercial has established a local manufacturing facility in Sydney. This facility is currently focussing on manufacturing the Arrow-X range of extrusion profiles amongst other product ranges. An engineering department is also available to suit project specific requirements. This department are focussed on component changes and emergency solutions where required to meet client demands as efficiently as possible.

Overseas Sourcing

SAL Group has a team of 10 people based in China. This team works closely with our supply partners on product design and engineering, quality assurance and logistics to ensure all products meet the highest levels of compliance and quality.

We have a national distribution network throughout Australia, with daily collection services

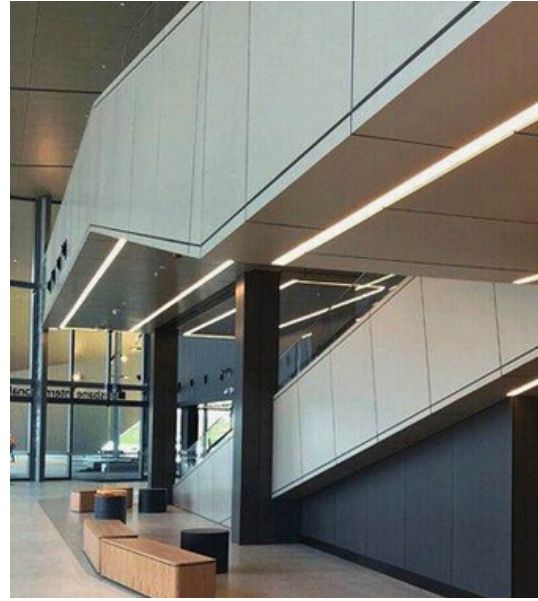

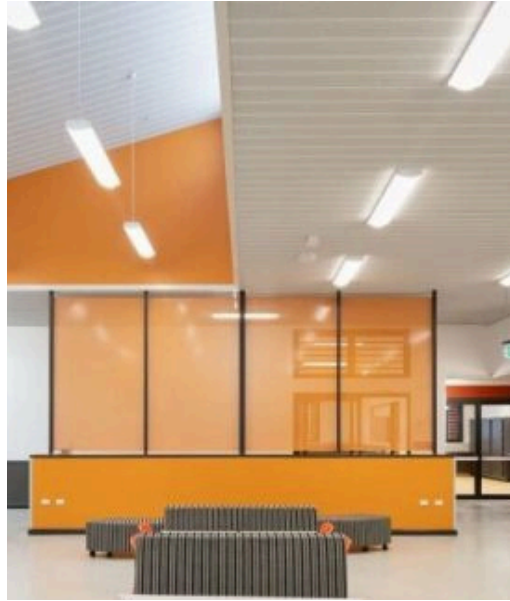

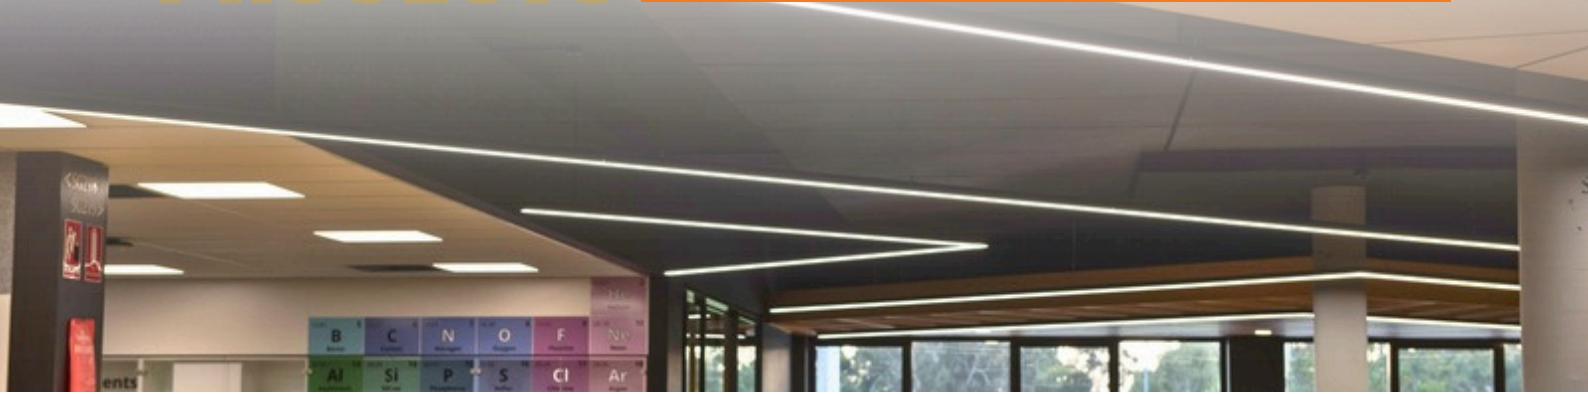

We have an extensive global network of innovative supply partners with a strong commitment to Quality and Compliance

No job too small, we have the expertise with a team of professional lighting designers

PROJECTS

SUSTAINABILITY

Ethical Sourcing Statement

Introduction

At SAL Commercial, our purpose is to responsibly shape the built environment through lighting solutions engineered and manufactured in Australia with integrity. We are committed to compliance, transparency, and long-term performance—delivering lighting that performs as specified, earns trust, and stands the test of time.

Our Principles

At SAL Commercial, ethical conduct and respect for human rights underpin everything we do. We are committed to preventing modern slavery, promoting fair labour practices, and ensuring safe, lawful working conditions throughout our global operations and supply chain.

Our Commitments

SAL Commercial's sustainability approach is guided by the UN Sustainable Development Goals, with priority on areas where we can deliver meaningful impact. We are committed to industry leadership through low-impact, energy-efficient lighting and active support of the Green Building Council of Australia and New Zealand.

Our Products

Energy and emissions: Our lighting solutions are designed to reduce energy demand and associated emissions across commercial and public environments.

Lifecycle accountability: We apply a whole-of-lifecycle approach to product development, enabling transparent assessment, responsible decision-making, and ongoing reduction of environmental impacts.

Our Business

We operate under strict Quality Management Systems, with responsible procurement embedded into our operations. We are committed to an inclusive, safe workplace that promotes wellbeing, diversity, and equal opportunity.

Our Supply Chain

SAL Commercial embeds responsible sourcing into its business operations to promote ethical, environmental, and social standards across the supply chain. We work collaboratively with suppliers and partners to drive continuous improvement, supported by robust supplier screening processes and a clearly defined Supplier Code of Conduct.
