OUR STORY

The foundations of SAL Commercial date back to 1998 with the establishment of Sunny Lighting Australia, a family owned business. The Australian owned and operated business methodically developed a widespread reputation as a trusted brand in the Australian lighting community.

Global market challenges and the dynamic evolution of LED technology catapulted Sunny Lighting Australia to the forefront of the lighting industry, manufacturing and supplying cutting edge solutions for the wholesale channel. Decades on, the 100% Australian owned company now known as SAL National has continued to build on its brand reputation for quality product and exceptional service to be a leader of lighting technologies in the 21st century.

SAL Commercial has established itself as an organisation that understands all aspects of the project lighting market. With a desire to challenge the status quo of the lighting industry and develop class leading products that not only enhance the experience for end users but offer class leading features and performance to those who design, specify and who install our products.

SAL Commercial is proud of our rich history in the Australian lighting landscape and steadfast in the belief that we can help to shape the lighting industry as the world becomes more dynamic and flexible for decades to come.

SAL Commercial has established key partnerships with the worlds leading technology

companies, providing the ability to handle projects of all sizes with a focus on delivering best in class results for lighting and quality.

There are many links to the project lighting chain and at SAL Commercial, it is our duty to ensure the end to end solution delivers successful outcomes.

BENEFITS of LED FLOODLIGHTING

1

INSTANT BRIGHTNESS

Utilising LED technology, the warm up period or delay if turned off is non existent meaning you get 100% of the light you need immediately.

2

LESS MAINTENANCE

With a lifetime rating of up to 178,000 hours, LED sports lighting offers the ultimate in reliability while saving in operational maintenance costs.

SUPERIOR LIGHT

Combining precision made optics with the latest in LED technology, modern sports floodlights offers much more quality light where you need it and less where you dont.

POWER SAVINGS

Savings of up to 60% can be obtained by converting an existing site to LED. With up to 160 lumens per watt, the efficiency of LED far outweighs older technologies.

OVERVIEW BARCELONA LED

600W

800W

1000W

1200W

Heatsink constructed from a single piece of pressure die-cast aluminium.

> Modular style trunnion bracket designed to withstand harsh conditions over the lifetime of the installation.

> > Birdproof cable protection is supplied as standard on every product in the Barcelona range.

FLOODLIGHT

Termination enclosure supplied with stainless steel cable glands and a IP67 rating.
